PROFESSIONAL PROFILE

Full Stack web developer with a passion for front-end and UI/UX. Possesses an enthusiasm for education and creating elegant solutions in an efficient manner.

PERSONAL PROJECTS

Resu-Make, [Project Link](#)
Skills - *React, Express, Node, MongoDB, Heroku*
- A full stack resume generator that utilizes user authentication and pdf library to generate a digital copy.
- Built using Bootstrap and a React front end. The back end uses passport and bcrypt for user authentication and security.
- In addition, MongoDB and React Router are used.

Menu MaQ'R, [Project Link](#)
Skills - *JavaScript, Express, Node, Sequelize*
- An application to create digital menus for individual users by generating unique QR codes.
- Built with Javascript, Express, and Node.
- In addition, Bootstrap was used for the front end function and styling.

Night Out, [Project Link](#)
Skills - *Javascript, JQuery, Ajax, Web APIs*
- A browser based application to randomly generate a brewery location and event based on the user's location.
- Uses Javascript and JQuery Ajax calls to multiple web APIs and harnesses Bulma as a frontend framework.
- In addition, it is mobile responsive and provides location information using Mapbox's API.
